

RAFAEL YECID GAITAN FUENTES

rafael.gaitan342@gmail.com – (+57) 320 608 3876 – linkedin.com/in/rafael-gaitan - rygk1.github.io/portfolio-dev

PROFESSIONAL PROFILE

Front-end developer with +4 years of experience in web and mobile applications, bringing adaptability, strong communication, problem-solving skills, and a commitment to high-quality, tailored code. Motivated by continuous improvement and team collaboration, delivering solutions that align with the company's goals and drive impactful results, with experience working CI/CD in cross-functional teams with UX, product managers, and backend developers.

WORK EXPERIENCE

Solidaridad Network – Front End Developer

Oct 2021-Oct 2024

Client: NGO Project

I developed an offline-first mobile application (Angular, Ionic, Firestore, RxJS, NgRx), ensuring robust synchronization and optimal response times.

- Led code reviews and guided developers to ensure high-quality, maintainable code.
- Designed and implemented a Content Management System (CMS) linked to the application, enabling efficient field data management.
- Built scalable components following Clean Architecture principles, improving maintainability and product evolution, with automated validations using Bitbucket Pipelines to ensure successful deployments.
- Created detailed documentation for every aspect of the project, including features, code, development flows, diagrams, and testing.

SOFU BIC SAS – Front End Developer

Sept 2019- Ene 2021

Client: Security Companies and Organizations with Firearm Permits

Developed management and control tools for security companies and organizations handling firearms or non-lethal weapons. The tool facilitates document management and monitoring permits, permitting the generation of advanced alerts for operational managers regarding upcoming expirations.

- Implemented modules for client and user management, optimizing information management for each entity.
- Developed specific features for controlling and administering armories and ammunition, enabling accurate inventory tracking.
- Created an automatic alert system that notifies users of permit expirations, assisting in identifying weapons with valid or expired permits.

EDUCATION

Systems Engineer

UNIVERSIDAD INTERNACIONAL DEL TRÓPICO AMERICANO (UNITROPICO)

Jul 2019-Mar 2022

TECHNICAL SKILLS
